

Grow Beans

- **Useful link to help you grow beans –**

http://www.bbc.co.uk/gardening/basics/techniques/growfruitandveg_growingbeans1.shtml

Equipment and items you need –

- Plant pot
- Plate
- Water
- Trowel or use your hand
- Bean seeds – most supermarkets have these
- Soil – most supermarkets have these or use soil from your garden
- Cotton wool pads or balls

Step by step what you need to do –

- Sowing seeds first:
- Put cotton wool balls or pads on the plate
- Put beans on top with space between
- Pour water on top
- Put plate on a windowsill
- Let them germinate

Putting in soil –

- Once seeds open up and a stalk shows

- Place soil in a pot halfway up
- Place beans on soil with space in between them
- Place soil on top to cover
- Pour water on top
- Leave pot in the sun so they can grow
- Water pot everyday if soil becomes dry
