Once upon a time there lived a knight called George.

During his many travels he came across a village.

The villagers were very unhappy because of a dragon that lived in a nearby lake.

The maidens were chosen by lottery.  
That day the lot fell on the king's daughter.

Every day the dragon demanded that they sacrifice a beautiful maiden.

George decided to slay the dragon and save the princess.

George went to the lake where the dragon lived.  
The dragon rose out of the water with a mighty roar!

George wasn't scared. He fought the dragon with all his strength until it was defeated.

The princess was saved and the villagers were overjoyed!
