		Curriculum Strand	My Thinking and Problem Solving	
Long-Term Plan				
Trust	Diverse Academies	**Subject**	Computing	
School	Yeoman Park Academy			

	Computing and Technology Focus	Online Safety Focus
Autumn	Communicating	E-Safety – Content
Spring	Finding Out	E-Safety – Contact
Summer	Computing	E-Safety – Conduct

This is an annual long-term plan, whereby every year (A, B, C and D) these topics will be the same, however, the activities and sessions can be adapted in order to be linked to the curriculum theme/topic for the term.

Computing and Technology Focus refers to the application of using technological devices to access the world around us, from using buttons/switches for cause and effect to making simple animated videos using multimedia software.

Online Safety Focus refers to which aspect of staying safe on the internet will be explored, however, it is important to continue to regularly teach this area of the curriculum throughout the year.
