Class: Researchers 3 Term: Summer 1

Yeoman
Park
— ACADEMY —

Learners will be exploring the new building and identifying different rooms via Travel Training.

The Very Lonely Firefly by Eric Carle

MY COMMUNICATION

This half-term, we will be exploring our key text, through sensory exploration. We will be continuing to practise our mark making in our Move, Paint and Draw lessons. Learners will practice their upper and lowercase writing linked to the phonic sound of the week and words related to the story. In sensory sounds, we will be focusing on the sounds j,v,y,w, and th.

We will continue to work on our individual communication targets throughout the school day.

MY THINKING AND PROBLEM SOLVING

In our maths sessions, we will be learning about time linked to days of the week, months and our daily routines etc – being able to identify what we do at different times of the day. We will be practising our individual number targets during our three mini maths sessions. In science, we will be learning about electricity, we will be finding out how electrical items work via electronic toys and switches. Towards the end of the term, we will be making a basic circuit with adult support.

MY PSED

In Careers, this term we are looking at the role of a Police Officer including equipment they use, clothing they wear, transport they use and what they do as well as incorporating some role play. Learners will be looking at different skills in PE linked to Athletics e.g. javelin, hurdle, jumping, and throwing.

MY CREATIVITY

Art will be linked into the Friday Theme Days that will be on offer each week as well as during choosing time and the odd occasion during box work in the morning. In cooking we will be making sandwiches using different breads and sandwich fillings. Some learners will be working on their money and budgeting skills by purchasing items needed.

THE WORLD ABOUT ME

The focus this term is to focus on linking geography in our Travel Training sessions on Thursdays – being able to explore different surfaces, crossings as well as being able to use and understand a basic map when walking around the new school and Mansfield Woodhouse. The class will be on a rota so that all learners have the opportunity to go out. Learners in class will be looking at objects linked to geography etc.
